CHALLENGE NAME : [RECIPE ARCHIVAL WORKSHOP]

DEV : [AMRUTA PATIL]

CATEGORY : [WEB EXPLOITATION]

LEVEL : [EASY]

2024

Description:

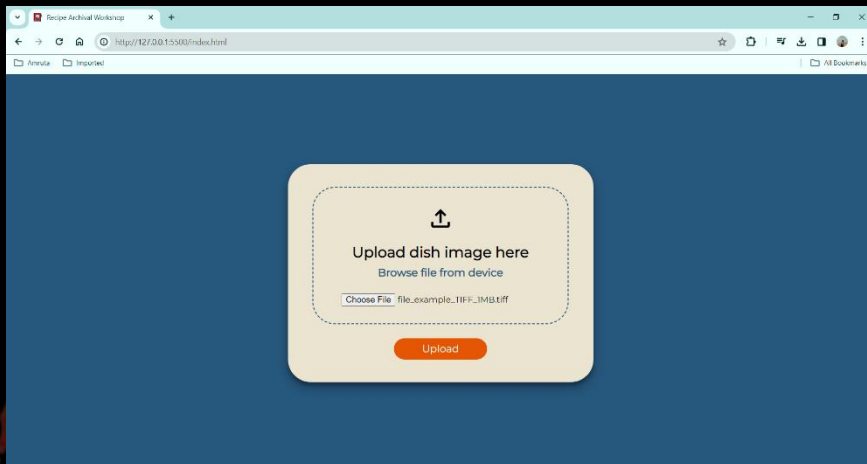

New interns in the Recipe Archival Workshop have a simple task- upload images of yummy delicacies and dream about tasting them some day.

Attachment:

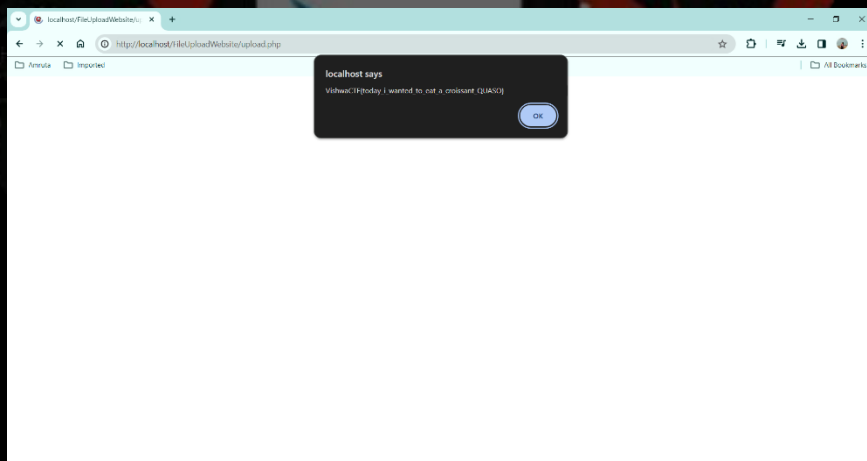

Website Instance

Solution:

The given website is a file upload form. Challenge title mentions something about archives. If searched up on Google, we find that the file extensions usually used for archivals are TIFF, RAW, etc.

The abbreviation of challenge title points the solver towards RAW file extension. However, that is a false lead... The solver must upload a TIFF file (size under 5 MB) to get an alert which contains the flag.
